

A revolutionary yet simple & unique drive system to suit roller shutters & solar shading.

### OZROLL DRIVE SYSTEM

The OZ Drive system is a low voltage battery operated drive system that is not reliant upon mains power. With operation at the touch of a button this unique system offers a cost effective alternative to current control options with many other additional benefits including a more efficient installation.

The motor can be fitted into the axle (T20 Tubular Motor) or mounted on the end plate (L10 Lateral Motor). Each motor is equipped with a low voltage cable which is connected directly to the back of the wall plate or to the fixed switch allowing for power to be generated through the motor.

The E-Port 18650 controller is removable and can be used to operate more than one roller shutter further highlighting the overall cost efficiency of the system. The controllers are equipped with a re-chargeable battery that can be easily charged via a number of convenient options.

### FEATURES AND BENEFITS.

- ✓ Low Voltage Battery Operation  
- Not Reliant On Mains Power
- ✓ Available In RF With Remote Control
- ✓ Charging Is Both Simple & Convenient
- ✓ Multiple Shutters Can Be Operated With A Single Controller
- ✓ Perfect For Narrow Shutters
- ✓ Simple, Safe & Cost Effective Installation
- ✓ Ideal For Retro Fitting To Existing Shutters
- ✓ Simple, Safe & Cost Effective Installation
- ✓ Simple Operation For The Whole Family

## T06

- ✓ Power Equivalent To 6Nm
- ✓ Lifting Capacity Equal To 10kg
- ✓ Slimmer Design With A 35mm Tube
- ✓ Alternative To The L10

## T20

- ✓ Lifting Capacity Equal To 32kg - Add Power Equivalent to 20Nm
- ✓ Mechanical Limit Settings
- ✓ Built In Overload Protection
- ✓ Allows For Smaller Head Box Sizes

## T35

- ✓ Power Equivalent To 35Nm
- ✓ Lifting Capacity Equal To 55kg
- ✓ Designed With A 45mm Tube
- ✓ Ideal For Use On A Sentry AE401 Extruded Roller Shutter
- ✓ Enormous Output For Its Compact Size

## L-10

- ✓ Fitted To The Side Plate 160mm & Above
- ✓ Ideal For Narrow Shutters
- ✓ Innovative Down Stop Limit Within The Mechanism
- ✓ Automatic Limit Settings
- ✓ Right Or Left Side Installation

## E-PORT REMOVABLE CONTROLLER

- ✓ Designed For Use In Multiple Shutters
- ✓ Available In RF & Non RF
- ✓ Long Life Li-Ion Batteries
- ✓ Safe & Simple Charging
- ✓ Suits Both The Tubular Motors & L10 Mech

## E-TRANS

- ✓ Hand Held Remote With Wallplate
- ✓ Available In Both Single & Nine Channel
- ✓ "Star" Button To Access Favourite Function Located On The E-Fix
- ✓ Limitless Range Of Programming Features
- ✓ User Friendly Programming Ability

## E-3 WAY

- ✓ Allows For Three (3) Shutters To Be Operated By A Single Controller
- ✓ Simple & Effective Wiring Process
- ✓ Electronic Switching Therefore Can Determine The 'Default' Shutter
- ✓ Ideal For Bay Or Box Windows

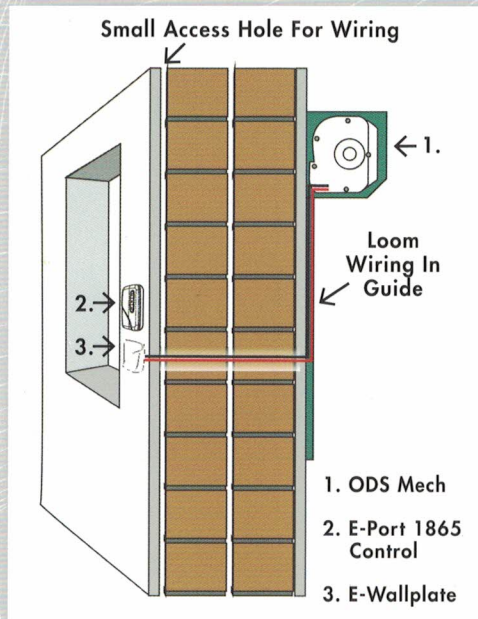

## E-SOLAR

- ✓ Used In Conjunction With The E-Switch
- ✓ No Charging Required
- ✓ Environmentally Friendly
- ✓ Simple Installation
- ✓ Stand Alone System

## COMPONENTS CONT.

### SIMPLE INSTALLATION

4 Shutters, 4 Wallplates, 1 E-Port

Multiple shutters can be operated with a single controller

3 Shutters, E-3 Way

3-Way switch with a single controller

4 Shutters, 4 E-Port, RF-Control

Available as RF with remote control
